## Dr. Michael K. Bassiri

In practice since 1991, Dr. Michael K. Bassiri and his team have worked hard to care for patients and deliver exceptional dentistry. The staff is comprised of professional, skilled individuals who truly care about the well-being of their patients.

Dr. Bassiri graduated from Georgetown University School of Dentistry in 1990, and has built upon his education with extensive experience and continuing education. He advanced his expertise in aesthetic and cosmetic dentistry by graduating from the Las Vegas Institute for Advanced Dental Studies (LVI), the premier post-graduate dental teaching center. He can perform full-mouth restorations, just like those conducted on TV makeover shows and smile transformations are one of his specialties.

Dr. Bassiri has lived and worked in the Washington D.C. area for over 30 years. He has been married to his wife, Susan, for over 25 years and they have two children, Steven and Leeza. The Bassiri family currently lives in Northern Virginia.

# Welcome

## to Virginia Smile Solutions

Your employer has joined Virginia Smile Solutions (VSS) to provide you and your family with access to advanced dental care at affordable rates.

VSS is a special reduced fee dental plan that lets you – and your immediate family – take advantage of the full range of services offered by Dr. Michael K. Bassiri at discounts that make advanced dental care affordable. There are no membership fees to join, no insurance premiums, no deductibles and no payroll deductions.

For your convenience, VSS offers two locations; one in Fairfax and one in Gainesville.

### *It's Easy to Enroll\**

To take advantage of the affordable dental care offered by VSS, call the office nearest you and schedule your comprehensive exam, gentle cleaning and discounted x-rays. During this visit, Dr. Bassiri will review your medical and dental health history, discuss your goals for your oral health and answer any questions you may have. Once completed, you will be enrolled in VSS and receive your personal membership benefits card. Your benefits will remain active as long as your company employs you. We assure you that any fees will be thoroughly explained prior to treatment.

*\*Individuals covered by private dental insurance are not eligible for VSS*

VSS provides the advanced dental care offered by Dr. Bassiri at significant savings. These savings can help you and your family maintain optimal oral health and help keep your smile for your lifetime.

Dr. Bassiri practices comprehensive dental care, including general/family dentistry, sedation dentistry, orthodontics, cosmetic dentistry, neuromuscular/TMJ dentistry and restorative dentistry.

## dental services

### General/Family Dentistry

From regular exams, cleanings and fluoride treatments to white fillings, root canal therapy and periodontal therapy, Dr. Bassiri offers the range of care your family needs to keep their smiles healthy.

### Sedation Dentistry

If anxiety or fear has kept you from visiting the dentist, sedation dentistry can help. Dr. Bassiri offers nitrous oxide, oral conscious sedation and general anesthesia to help you completely relax – even sleep – during your appointment.

### Orthodontics

Everyone wants a straight, appealing smile, but there's more to orthodontic treatment than enhancing appearance. Orthodontic treatment improves the function and comfort of the bite as well. From neuromuscular function orthodontics to Invisalign® invisible braces, Dr. Bassiri will help you determine which treatment method is right for you.

### Cosmetic Dentistry

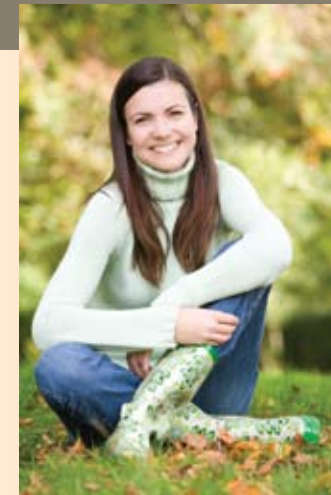

From complete smile makeovers that beautifully transform your entire smile to smile whitening treatments, Dr. Bassiri offers a range of cosmetic procedures to enhance the appearance of your smile, and as a result, boost your confidence and self-esteem and erase years from your appearance.

### Neuromuscular/TMJ Dentistry

When your jaw is not properly aligned, called malocclusion, a variety of symptoms can result, from chronic headaches and migraines to facial pain, jaw pain, back pain, even numbness and tingling in the fingers, just to name a few. Through neuromuscular dentistry, Dr. Bassiri can diagnose malocclusion, then gently and non-invasively return your jaw to its most comfortable position, eliminating pain and enhancing appearance.

### Restorative Dentistry

Time can take its toll on your teeth. Dr. Bassiri offers dental treatments that restore health, comfort and function to your mouth, including crowns and bridges, full and partial dentures and dental implants.
